- Available in a wide range of different variants and sizes, in both mono- and multi-colour options
- The cabinet body is crafted in organically dyed Valchromat – a unique kind of robust MDF material
- Suitable for a wide variety of storage and display uses in many different private and public contexts
- Qualified for contract use

COLOUR CABINET DESIGN BY MULLER VAN SEVEREN

Designed by Belgian designers Muller Van Severen, the Colour Cabinet collection is a series of floor standing and wall-hanging cabinets that highlight the contradictory interplay between clean, minimalist design with the vibrance and originality of colour. With functionality as a starting point, the designers focus on the use of materials to explore contrasts and similarities in the materials and colours used, showcasing the materials' natural beauty in essential furniture items. The cabinet body is crafted in organically dyed Valchromat – a unique kind of robust MDF material, with the supporting frame made in durable steel. The Colour Cabinets are available in a wide range of different variants and sizes, in both mono- and multi-colour options – from a single wall cupboard to a low media storage unit to a multi-shelf cabinet with sliding glass doors. Its versatile design and numerous options make it suitable for a wide variety of storage and display uses in many different private and public contexts.

Muller Van Severen was founded in 2011 by Belgian artist duo Fien Muller and Hannes Van Severen. The couple has always been on an inspired quest for sculpturally interesting furniture objects, and their work sits somewhere between design and art, drawing on their passion for architecture and materials. They have won countless awards and collaborated with prestigious museums worldwide (such as Vitra Museum, Centre Pompidou and Musée des Arts Décoratifs Paris) and international galleries (Galerie Kreo, Side Gallery, Valerie Traan Gallery). For HAY, Muller Van Severen has designed the Two-Colour Table, Colour Cabinet, and Colour Rack and Hanger, along with the Arcs series comprising the Arcs Lamp Shades, Candleholder, Vase, Mirrors, and Trolley.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products’ overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
